Reason for Request/Appeal or Reason Permit was Refused: We request to place a 40' (length) x 8' (width) x 8' 6" (height) metal shipping container on property on the west side of paved surface. The shipping container would be used for cold storage supplies. Based on the current supply chain challenges, our business is trying to order and house larger quantities of product to ensure availability when needed. This would be a temporary solution until products are once again readily available, or until the cost of adding permanent building space is more affordable.
