

Common Council Report

Agenda Item: Review of 2021 Building Permits
Meeting Date: March 15, 2022
Presenter: Jenny Salvo, City Clerk
Department: City Hall

Conformance with Strategic Plan:

- Affordability & Financial Stability
- Safe, Inclusive, Welcoming Community
- Diverse Opportunities for Fun and Life-Long Learning
- High Performing Organization with Professional Staff
- Environment for Business Success with Thoughtful Growth and Development

Summary

Sec. 10-118 requires the building inspector keep a record of all permits, fees and inspections and shall make an annual report to the Common Council.

Analysis and Key Issues

In July of 2021 the City transitioned the issuance of building permits from internal staff to General Engineering Company. GEC has been the primary building inspector for commercial buildings for several years along with cross connection services. The attached report includes all permits issued internally by Howie Robinson along with those issued by General Engineering Company from January 1, 2021 to December 31, 2021.

Recommendation

No action is needed on the annual building permit report.
