Project Description

Describe the overall project and scope of work (attach additional pages if necessary):

This project includes removal of the existing facade starting just below the I beam (which is behind the awning), removing the awning, removing stucco, removing old windows. Opening windows to their original size (to match height of 650 College look and feel) and installing new windows. The face below the I beam will have an exterior weather resistant surface such as aluminum metal above and below windows also matching 650 College Street in the color black. Exterior lighting will be added to light up the entire store front. The existing and what appears to be original front door will be restored. New windows will be installed on the front and side upper openings. They will be wrapped white keeping consistent with other upper white features of the building. The boards covering windows will be removed from the side and all windows restored, reglazed, cleaned up, and painted. Tuck pointing of the side wall is required to maintain its integrity and will be done where needed.

How does this project meet the goals and objectives as detailed in the Façade Improvement Program Guidelines (attach additional pages if necessary):

The facade improvement program is intended to encourage improvement within TIF districts which this will do. This will improve the attractiveness of this building and encourage further growth of the downtown area. This will make this location more attractive to future and current tenants and create a downtown landscape that the residents of Milton will seek to look at the larger display windows and what is contained behind them. Our goal is to upgrade this entire area including surrounding buildings and working together with our neighbors create a destination for not only our city residents but also visitors from out of town which further drives business to our downtown tenants and promotes future business development.

Please provide the required attachments listed below:

- £ Five (5) copies of drawings / design plans (per Sec. IV.A.1.).
- £ Contractor proposal (s) and Certificate of Liability Insurance (per Sec. IV.A.2.).
- £ Certificate of Insurance (per Sec. IV.A.11.).
- £ Historical photos of property if available.

Certification: The information provided above is true and accurate to the best of my knowledge and I have read and understand the guidelines of the City of Milton CDA Façade Improvement Program and agree to abide by its conditions. I acknowledge that the CDA has the right to terminate this agreement under the Façade Improvement Program if I as the applicant am found to be in violation of any conditions set forth in the guidelines of the program.
