

Common Council Report

Agenda Item: Discussion and Possible Action Regarding Replacement of the Biosolids Thickening Building Make Up Air Equipment
Meeting Date: April 6, 2022
Presenter: Mark Langer, Public Works Director
Department: Public Works - WWTP

Conformance with Strategic Plan:

<input type="checkbox"/>	Affordability & Financial Stability
<input checked="" type="checkbox"/>	Safe, Inclusive, Welcoming Community
<input type="checkbox"/>	Diverse Opportunities for Fun and Life-Long Learning
<input checked="" type="checkbox"/>	High Performing Organization with Professional Staff
<input type="checkbox"/>	Environment for Business Success with Thoughtful Growth and Development

Summary

Replacement of the make up air unit in the WWTP biosolids thickening building.

Analysis and Key Issues

The make up air unit in the biosolids thickening building was installed as part of WWTP improvements completed in 2001. The unit provides clean air into the room during the sludge thickening process. Various repairs and maintenance have been required over the last several years to keep the system operational and there are currently multiple parts in need of repair or replacement.

Wastewater staff has obtained multiple prices for the equipment replacement. The range of prices is \$24,440.00 to \$28,954.00. Bassett Mechanical out of Madison provided the lowest proposal.

Fiscal Impact

The project proposal from Bassett Mechanical to provide and install the necessary equipment is \$24,440 and would be funded by the sewer utility.

Recommended Motion

City administration recommends approving the project proposal from Bassett Mechanical for the Biosolids Thickening Building Make Up Air Equipment Replacement in the amount of \$24,440.00 subject to publication of a Class 1 Notice.
