

Dear John Traynor or whomever this may concern,

My name is Aurora Pregler, I am a Life Scout through Troop 417 working my way to Eagle. As part of a scout's journey to make Eagle one must complete a project that benefits the community. For my project, I was wondering if I could make bat houses for the snowmobile trail behind the fire station on Madison Avenue. These bat houses would be built and installed by members of my troop and me. Bat houses are very beneficial to the community of Milton because they will keep bats out of the attics of homes that surround the trail and will give homes to bats that live in Milton. Having bats in Milton will be good because bats eat hundreds of mosquitoes and other pesky bugs. Please take into consideration my proposal for these bat houses. Thank you for your time and support.

Sincerely,

Aurora Pregler
Troop 417
