Go Slow Ride

Sponsored by the Janesville Velo Club

Join Greg Linder, Site Manager for Air Products in Milton, for an eight mile exploratory ride to the connector joining the new **Highway 26 Bike Trail**. Here is your opportunity to learn the safest routes to the new ten mile stretch of paved bike trail connecting Janesville and Milton and heading toward and eventually connecting with Fort Atkinson.

This ride is the third of a series of Slow Cycle bike rides sponsored by The Janesville Velo Club. Slow Cycle is just what the name implies, a ride that goes no more than nine miles per hour and covers 8 to 12 miles of riding.

This is a supported and non drop ride. This means if you suffer a breakdown, physical or mechanical, you will get a ride back to the start. On this ride no one gets left behind, the ride travels at the pace of the slowest rider, after all this is the slow ride.

The next ride will be the Pie Ride hosted by Janesville Morning Rotary and held on June 14th. The Go Ride Series will continue on July 9th and visit Riverside Park.

There will be a free post ride treat, courtesy of Air Products, at the Cold Stone Creamery

Honorary Ride Leader: Greg Linder

Ride Sponsor: Air Products - Milton

Post Ride Treat: Cold Stone Creamery in Pine Tree Plaza

The Home Depot is located at 3200 Deerfield Drive in Janesville.
